Know well it drives out every fear,
And wakes up *real* surprise!

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And soothes the soul to glow!

"Billy" Lager is the best of drink,
It makes a man react all he'd think!
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man pale drunk
Nor flickers a common skunk!
But always makes the senses true
To Truthful triumph if he begs!

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a deadly noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The Gripgrass worth in sparkling foam,
At Bender's shop and happy home!

So you that want a beverage clear
And one that sparkles fair,
Come log at Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your features reward more!

[From the Utica Morning Herald, Jan. 19, 1859.]

Benjamin E. Walker, of Madison, in Oneida county, a respectable farmer of comfortable circumstances, had been seriously afflicted for six months past with a cataract on the right eye, and also with a weakness of the left eye. He had consulted various physicians, and had undergone the operation for cataract, but without success. Dr. Lighthill, of this city, who visited a neighbor, saw by a mere glance that Walker's case was not a hopeless one, and he undertook the operation. Dr. Walker operated upon the cataract, and in a few days restored the sight of the patient to its original vigor.

[From the Syracuse Journal, Sept. 16, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Dean, has performed an operation for the cure of cross-eye upon the eyes of Asa Bird, Esq., of Pittsford, Monroe county, with perfect success. Both the muscles of that eye were severed, and the eye is now as straight as the other. Our informant was himself born cross-eyed, and has been operated upon by those who are considered quacks in the city, as he says, but by those who have experience in such cases.

Life of a Printer.

Printers, it is said, die at an early age. This is doubtless caused by the noxious effluvia rising from the types, want of exercise, constant employment, and the late hours to which their work is prolonged.—There is no other class of human beings whose privileges are so few, whose labor is so continuous, whose wages are so inadequate, as printers. If a "typo" be a man of family, he is debarred of the privilege of enjoying their society at all times, because his hours of labor are almost endless, and his moments of leisure so few that they must be spent to recruit his exhausted energies, and prepare him for the renewal of his toils. Poor fellow! he knows nothing of sociability, and is shut out from the world as a convict in a prison cell. Truly he is in the world, but knows not of it. Toil—toil—toil, by night and by day, is his fate, until premature old age ends his existance. For the advancement of science, morality, and virtue, the chords of his heart are severed one by one, and when his life is run, and time to him is no more, he goes down to the grave unmourned for and unknown, though his existence has been sacrificed for the benefit of his race.

When we hear mechanics cry out against oppression, and demanding certain hours for labor and for rest, we cannot but reflect upon this situation of our own craft; how every moment of their lives is forced into service to earn a bare subsistence, how uncomplainingly they devote themselves to the good of that same public, who wear them as a loose garment to be donned when convenient, and doffed when no longer needed.

Printers are universally poor men, and for two reasons. The first is—they rarely ever receive a fair compensation for their services. And the second is—that inured to continual suffering, privation and toil, their purse strings are ever untied at the bidding of charity, and the hard earned "dimes" are freely distributed for the relief of their fellow men. Thus it is that they live poor, die poor, and if a suitable reward does not await them after death, and indeed must be the beginning, the existance, and the end, of poor "typos."

The San Diego Herald says that *General* William Walker has resigned filibustering, and that he intends to unite his destinies with a lady of Lower California, who once saved his life. He is said to be abundantly rich, but objected to the alliance in consequence of a difference of religion. This has been obviated by the ceremony at Mobile.

SOME OF LAGER BEER.—There are thirty-five breweries in St. Louis and vicinity, which, during the past year turned out 115,000 barrels lager, and 77,400 barrels common beer, the total value of which was $1,336,400.—In addition to this 50,000 barrels were imported during the year from Milwaukee, Belleville and Pittsburg, all of which were needed for home consumption.

WRECK.—The Ontonagon Miner gives an account of the recent loss of the schooner Custer. She went on the beach on the South shore of Presque Isle, in a gale, and is a perfect wreck. She belonged to Willard & Day. Her cargo was mostly saved.

EDITOR AMAZED.—The Editor of the Toledo Blade, on his way home from his office, on Friday, was attacked by Paul Edwards, Canal Collector of that city, and harshly used, in consequence of some remarks made in his paper.—Great country this!

A snake more dangerous than the dreaded reptile with the rattle was recently killed on a New Jersey farm. It goes by the name of the "hoople snake" Its plan of action is to curl itself into the form of a hoop, and then strike its victim. The venom of this thing of evil causes death in five minutes.

Horse Thief Shot—Two Notorious Counterfeiters Arrested.

Mr. McCutchen, an expressman, located at Sparta, Illinois, brought to this city yesterday, and handed over to the police, daguerreotypes of two notorious scoundrels, who had infested the neighborhood of Sparta, in company with others, for some time back. Mr. McCutchen states that a gambler and horse thief named Gus Graham, with the two individuals above alluded to, had been ordered to leave Randolph county by the citizens.

This kind request not being complied with, the people gathered, en masse, and visited the house where Graham and his two associates were stopping. Upon seeing the crowd approach, Graham drew his pistol and discharged its contents in the crowd; but scarcely had the smoke of the pistol died away, ere Graham fell a corpse—shot by several persons at once. The other two rascals were arrested, and are now confined in Chester jail. Graham was one of the most desperate scoundrels in Illinois.

A HORRIBLE AFFAIR.—A few evenings since a young lady belonging to a very respectable family in Hudson City, while returning home through Palisade avenue just in the edge of the evening, was seized by five of the tunnel men who conveyed her into a piece of woods near General Wright's residence and there committed an outrage upon her person. The young lady remained insensible for some time, and finally recovered sufficiently to make herself heard by passers, who conveyed her home where she now lies in a critical condition. The friends of the lady have endeavored to keep the affair secret, but are making every effort to ferret out the ruffians and bring them to justice. There are some 800 laborers employed in the New York and Erie tunnel, some of whose conduct has been such that ladies in that vicinity dare not go out after sundown.—It is hinted that a riot, which will be fearful in its results, is not far distant.—*N. Y. News, of Monday.*

The Jacksonville (Ill.) Argus says the case of Samintha M. Wood vs. James Scott, for a breach of promise of marriage, and another suit by the father of the plaintiff in a former case against the same defendant for the seduction of his daughter, were both decided on Tuesday, in the Circuit, now in session at that place. The jury returned a verdict in each case for five thousand dollars, the full amount of the damage laid in the declarations.

PERSIAN.—Community is running wild over black and tan terrier puppies, and so extreme has the fashion become for black and tan that many young male bipeds are raising black and tan goatees and moustaches. Even the women are running after the puppies of this description, from which fact we may reasonably infer that we are in the midst of the dog days.—*Chief. Rep.*

A DIVORCED WIFE A SERVANT IN HER HUSBANDS FAMILY.—The Cincinnati Times relates that a gentleman living in that city, and well to-do, married about ten years ago and after living with his wife some five years, he concluded to get a divorce, on account of the unhappiness of their domestic relations. The wife consented and he applied to the courts and was successful. A year passed, and he concluded to venture once more in the matrimonial market and see if he could not find one who would make his home happier than the first. In this he was successful, and a short time afterward his divorced wife applied to him for work in his family in the capacity of servant girl.—The situation was given her and she now does the work in the house of which she was once mistress.

A "FINE ESCAPE." On Saturday last, a stable attached to Spence's Hotel, at Kernsville, near Johnstown, was discovered to be on fire, but was speedily extinguished. On Monday, Nathaniel Attle was arrested charged with having fired the barn. While standing in front of the Justice's office, and no one but a relative near, he took to his heels and made his escape; mean while the counsel were arguing whether the offence was bailable; the counsel evidently thought it was.

DANIEL E. SICKLES.—We are credibly informed from various sources that the Hon. Daniel E. Sickles has become entirely reconciled with his wife and is now living with her in marital relations as before the death of the late Philip Barton Key. We are also assured that in taking this remarkable step, Mr. Sickles has alienated himself from most if not all of those personal and political friends who devotedly adhered to him during his recent imprisonment and trial. This is the last act in the farce. This showshow "deeply injured" Mr. Sickles was by that intimacy which caused him to murder Mr. Key.—*Albany Standard.*

At Oskaloosa, Iowa, a young woman, whose husband came home drunk the other day, took down an ox-goad, and chastised him most gloriously—until he promised not to do so again. He laid the blame upon a friend who asked him to drink. She then whaled him again for not having ability to refuse.

New York, July 12.

The steamship Star of the West arrived at 3 30 this afternoon.

The trial of Wm. Williams at Panama for the murder of Capt. L. Otis, of Boston, resulted in a verdict of homicide in the 1st degree.

Advices from Peru mention another revolution under the lead of Seballos, Castillo, Echenique and others.

The revolution in Equador under Moreno had become quite threatening, the regular troops going over to the insurgents.

The defeat of the government forces was considered certain.

Guayaquil was still blockaded by the Peruvian fleet.

WASHINGTON, July 12.

The late Congress has appropriated only $15,000 as a preliminary to taking the next census, for the preparation of blank forms, instructions to Marshals, &c. Ample time will be allowed for the selection of reliable deputies, and such arrangements will be made by the Secretary of the interior as will secure the prosecution of the work with more promptness and perfection than heretofore.

Many aplications have been made for employment as clerks, but the census bureau will not be organized until next year, when the returns shall begin to be received.

There is authority for the assertion, that he never desirable the acquisition of Lower California may be to the Administration, no such proposition is now pending between the Government of the United States and Mexico, as has been stated.

Secretary Floyd's health is slightly improved, and he will return to Washington to accompany the President to Bedford Springs on Monday.

The President has recognized Frederick Kuhen as Consul of the Grand Duchy of Hesse Cassel, at New York.

The Mexican Minister is ill.

The Mayor of Washington having received a despatch from the Mayor of Richmond, that O. Jennings Wise had P. H. Aylett had left to fight a duel, and would probably proceed to the neighborhood of Washington. He issued a warrant to be issued for their arrest in case they should come this way. The officers are now on the look out for them.

Characteristics of Prominent Cities

Chicago—*In this city* the people do nothing but mortgage each others property, until there is not a man there who "holds his own!"

Detroit—The most of the white women marry negroes; the rest of the population run them off to Windsor in Canada.

Cleveland—Distinguished for receiving negroes, blowing up steamboats, and relying on the statements of third rate editors.

Erie—Noted for the best Harbor on the whole chain of lakes—drinking lager beer—pretty girls, and pulling up railroads by the roots.

Buffalo—Aldermen are frequently allowed to associate with white citizens, and the Buffalo platform is thereby rendered a substantial fact.

Rochester—All the people who are not throwing their brother-in-law over bluffs, are getting up conspiracies to imprison their wives.

Syracuse—Remarkable for running off stolen negroes—for packing conventions—for abandoning babies—for local editors, and for making salt, "Salt won't save 'em."

Utica—Molten whiskey and red hot politics.

Albany—Blacklegs, blackguards, and bizarre office holders.

Troy—McArthur, Francis, and Whitman. Its entire features.

West Troy—Counterfeiting and slung shot.

New York City—! ! ! ! ! ! !

LOCAL MATTERS.

Hot.—Yesterday and to-day were corn weather of the extremest kind. Business does not hurry itself, and but few attempts to hurry it.

Mrs. Hoag granted a New Trial.

This Case was argued before Judge Green yesterday and resulted in the above decision. It seems the point upon which the new trial was granted, was upon the proof of an injudicious remark made by one of the members of the Court to the Jury before their final decision, and which, there could be no doubt, had its influence in swaying the minds of some, if not all of the Jury, to the verdict which they at last unanimously arrived at. The Judge, under such circumstances felt constrained, to grant a new trial, which will take place in August next. The endeavors of her Counsel—Wakeman & Bryan—will be doubled; and a sifting of testimony may be expected.

Is Curry to be hung?

As the day approaches—Friday of this week—this question seems every where passing. As yet no tidings from the Governor has reached the public ear; and all seem expectant of *commutation*, or the fatal day will find poor *curry* hanging by the neck, and the law in its ex actions of "an eye for an eye and a tooth for a tooth," will be gratified, while Curry's spirit will be passed to the haunts on the plains of Higher Life, where Justice fills her own measure from the lap of endless fruition, and where judges and juries have no power to erect a gallows.

P. S.—Since committing the above to type, the Sheriff informs us that the Governor has commuted Curry's sentence to imprisonment for life.

Park Place.—B. G. Tisdale, Esq., formerly the popular proprietor of the American Hotel, is now the proprietor of one of the most pleasant Saloons in town. His Ice Creams, Soda's &c, are delicious.

Arrival of the Steamship Canada.

Sackville, N. B., July 12

The royal mail steamship Canada from Liverpool Saturday the 2d inst, passed Cape Ross at 3:30 P. M on Sunday the 10th inst, and arrived at Halifax to-day

She was boarded off the Cape by the news yacht of the N. Y. Associate Press, and a brief summary of her news procured, which was started from St. Johns yesterday but only reached this place this forenoon.

St. Johns, July 11

The following is a summary of the news by the Canada, which passed Cape Race at 5 o'clock P. M. Sunday.

The Emperor of Austria was expected to remain in Italy.

GREAT BRITAIN.

The new English ministry has pronounced for a strict neutrality.

Mr. Cobden had declined a seat in the Cabinet.

Provisions dull and quotations barely maintained.

New York, July 12

The New York Times of to-day contains letters from Mr. Raymond and Malakoff, its Paris correspondent, dated from the battle field of Solferino.

Mr. Raymond says that not less than 400,000 men have been engaged, and of those not less than 20,0000 dead or disabled lie on this bright starry night upon this bloody field.

The battle commenced at a little before 4 o'clock in the morning—not far from sunrise.

Just back of Castiglino rises a high range of hills; the Austrians had taken position upon these hills, planting cannon upon those nearest to Castiglione which they could approach, and had stationed their immense army all over the plain.

Napoleon promptly accepted the challenge and commenced the attack as soon as it was light this morning, by placing cannon upon the hills still nearer to Castiglione than those held by the Austrians, and opening fire upon them on the heights beyond.

He took his own stand upon the heights of this steep sharp backed ridge commanding a magnificent view of the entire extent of the plain and from that point directed the entire movements of his army during the early portion of the day. The French very soon drove the enemy out of the positions they held nearest to the town and followed them into the small villages of the plain below.

The first of these was Solferino, where they had a sharp and protracted engagement.

The Austrians disputed every inch of the ground and fought there as they did throughout the day, with the utmost desperation. They were three times driven out of the town before they would stay out.

The people of the town took part against the French, upon whom they fired from their windows, and the French were compelled, in self defence to burn the town. When they found it impossible to hold their ground any longer, they fell back slowly and steadily until they reached the village of Volta.

Upon the hills in the rear of the town and overlooking it immediately on the south and southwest sides, the Austrians had planted very formidable batteries, and when I arrived upon the field I went at once to the height where the Emperor had stood at the opening of the engagement, but which he had left an hour before to follow his victorious troops, these batteries were blazing away upon the French, who were stationed upon the broad plain and moving up in masses towards the front, where the artillery was posted, as their services were required; but as soon as they reached this point they were repeatedly enveloped in the smoke of the cannon and disappeared from observation, but the general result was soon made evident by the slacking of the Austrian fire and by the falling back of their smoke and a corresponding advance on the part of that which rose from the French artillery.

Malakoff estimates the French loss at about 25,000, including 10,000 wounded.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
